

Basic

€200

We import the data, you do the rest.

Data conversion

Data is imported into Drupal from vBulletin. Problems with the import that cause loss of data are fixed at no extra cost.

Core

€700

The forums that come with Drupal, made stylish.

Sane forum settings

Many of the problems with Drupal forums can be changed easily, it just takes a few tweaks.

Support modules for forums

Extra modules, that boost the features of Drupal forums, are installed and configured.

Basic forum theme

The forum will look like the rest of the site. Good for sites that already have a theme.

Data conversion

Advanced

€950
+ €1,500 for advanced profiles

Traditional forum, every feature but the kitchen sink.

User profile theme

User profiles will fit in with the rest of the site (optional).

Support modules for profiles

Modules that turn the site into a social network are installed and configured (optional).

Support modules for forums

Advanced Forum theme

The Advanced Forum module is used to get a traditional forum look. This is themed to look like the rest of the site.
